1 Open the **Play Store** app.

2 Browse or search for an app.

3 When you find the app that you like, tap it and read its description from user reviews.

4 To download or purchase the app, tap **Install** (for free apps) or the price button (for paid apps).

5 Tap **Accept**.

MetroPCS quick start information

Service

You will need the following information when activating service:

- Your name, address and an eight-digit number that you will use to access your account (your personal identification number "PIN").
- Your serial number (IMEI) and SIM card number.
  To locate the serial number, remove the phone from the box and remove the battery cover from the phone. The serial number is located near the bar code. It will be either 14 or 18 digits. The SIM card number can be located below the bottom bar code on the back of the SIM card holder.
- If your phone does not have a removable battery, check the box label or phone settings to locate the serial number.
- Your choice of MetroPCS plan and services including unlimited data, talk and text plans.
- Install the battery, if applicable, and SIM card in your new phone by following the step by step instructions in this phone's User Guide.
- Once your phone is powered up, dial 1.888.8metro8 (1.888.863.8768) to connect with an activation representative who will assist you in activating your phone. You can also activate your phone online by visiting metropcs.com. (As soon as your service is activated, be sure to fully charge the phone's battery before using it again.)

Don't hesitate to ask your MetroPCS representative for more information on additional features and services or visit metropcs.com.

General Disclaimer

Coverage: Coverage and services not available everywhere. Nationwide long distance only available to the continental U.S. and Puerto Rico. Coverage, rates, services and features subject to change.

Text Messages: Text messages can only be sent while in a MetroPCS coverage area or in a compatible roaming area. No guarantee of text message delivery.

General: Family Plan is limited to five lines attached to one account and use of qualifying phones. Limited time offer. Certain restrictions apply. Phone selection and availability may vary by store. Compatible MetroPCS device required; not all features or plans available with all devices. MetroPCS features and services for personal use only. Not all services are available in all covered areas.

Data Plans: For $40 and $50 plans, full available speeds apply up to monthly data allotment; then speeds slowed to average MetroPCS network speeds for remainder of billing cycle. Your phone will continue to indicate that it is receiving a MetroPCS 4G or 4G LTE signal even if your usage is not at full available speed. Wi-Fi usage does not count toward your monthly data allotment. Use of some content, features, or services may incur separate, additional charges and/or require a qualifying data plan or access to Wi-Fi connection. Data Top-Up purchase provides an additional 1GB of high speed data. Data Top-Up allotments may only be used during the Billing Cycle in which they were purchased.

Abnormal Usage: Service may be slowed, suspended, terminated, or restricted for misuse, abnormal use, interference with our network or ability to provide quality service to other users, or roaming usage predominance. See store or metropcs.com for coverage, details and Terms and Conditions of Service (including arbitration provision).

Your device may not work if you alter its original software. This device will only operate with firmware versions that have been approved for use by MetroPCS and the device manufacturer. If unauthorized firmware is placed on the device it will not function.

Hearing aid compatibility: This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been

tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider or the manufacturer of this phone for information on hearing aid compatibility. If you have questions about return or exchange policies, consult your service provider or phone retailer.

GPS: Your phone's GPS system is enabled by default in order to permit use of planned future services; see your phone's manual for instructions should you wish to disable your GPS for non-911 purposes.

MetroPCS Terms and Conditions of Service ("Agreement")

For the most recent and up-to-date version of the MetroPCS Terms and Conditions of Service to which you agree and will be bound when you activate, use, change or pay for your MetroPCS service, please visit metropcs.com/terms.

Welcome to MetroPCS. We are pleased that you have selected us as your wireless carrier. Safety tips

Consider device compatibility

If you have a pacemaker or hearing aid, check with your doctor to make sure it is safe for you to use a cell phone. In some cases, cellular radio frequencies can disrupt the performance of other electronic equipment. If you have questions about the interaction between your phone and any other piece of electronic equipment, ask the equipment manufacturer.

Drive safely

When you are driving, use your phone in a safe and sensible manner. Be aware of laws prohibiting or restricting the use of a cell phone while driving in your area. If allowed, here are a few tips:

- Assess road conditions before answering your phone. Your safety is more important than any call.
- Prepare your hands-free headset, if you have one, or turn on your speakerphone, before you start moving.
- Keep your phone close. If it rings and you discover it's in the back seat, do NOT crawl over the seat to answer it while driving.

Set up your phone

Insert the nano SIM and microSD cards

IMPORTANT: Use the nano SIM provided in the box only.
Don't cut a micro SIM or regular SIM card and insert it into the nano SIM slot. It's thicker than the standard nano SIM card and may get stuck in the slot.

❶

1. With the phone off and facing **down**, open the slot cover with your thumb or finger.

❷

2. Remove the nano SIM tray. To remove it, insert your fingernail in the small groove in the tray and then pull the tray out.

3. Place your nano SIM card into the tray, with the gold contacts facing **up** and cut-off corner facing **out**.

When reinserting the nano SIM tray, make sure it is facing **up** so that the nano SIM card doesn't fall out. Slide the tray all the way into the slot.

❹

4. Insert your microSD™ card into the bottom slot, with the gold contacts facing **up** and towards the slot. Slide the card all the way in until it clicks into place.

5. To close the slot cover, slide the plastic hinge into the side and press the cover until it clicks into place.

Charge the phone

1. Connect the phone to the power adapter using the provided USB cable.
2. Plug the power adapter into an electrical outlet to start charging.

Turn on the phone

- To turn on the phone, press and hold the POWER button.
- When the phone goes to Sleep mode, briefly press the POWER button and then drag the lock icon up to unlock.

Sign in to your phone

When you switch on your new phone for the first time, you'll be asked to set it up.

Walk through the on-device setup to choose your Internet connection, select how you want to set up your new phone, and more.

Be in the know

Get timely and smart updates on your phone. The HTC Sense® Home widget automatically adapts to where you are, and automatically shows apps that you often use at home, work, or outdoors.

1. On the Home screen, tap **Tap to personalize**.

2. Tap **Let's explore**.
3. Tap your current location.

You can resize or reposition the HTC Sense Home widget to fit more apps, shortcuts, and folders. Over time, the phone learns which apps you use often based on where you are and fills the widget with those apps automatically.
Define your style

Make your phone look and sound just the way you want it. Use the Themes app to apply detailed personalization to your phone. Along with ringtones, wallpaper, and sounds, Themes allows you to change the icon color and shape, app theme color, lock screen, and more.

From the Home screen, tap ⠿ and then find and tap **Themes**.
Apply a set theme
1. In Themes, tap ☰ > **Themes**.
2. Tap one of the themes to download it.
3. Tap **Apply**.

Change your home wallpaper
1. In Themes, tap ☰ > **Wallpapers**.
2. Tap one of the wallpapers to download it.
3. Tap **Apply**.
4. Choose where you want to apply the wallpaper, such as to the Home screen.

Pick ringtones and sounds
1. In Themes, tap ☰ > **Sounds**.
2. Tap one of the sound schemes to download it.
3. Tap **Apply**.
4. Choose where you want to apply the sound scheme, such as to the Ringtone or Notification.

Add a widget screen

Get more space to create shortcuts to apps, frequently used settings, bookmarked webpages, and more.

1. Press and hold an empty space on a widget screen.
2. In the pop-up menu, tap **Manage home screen pages**.
3. To add a new widget screen, swipe left until you see the ✛ icon, and then tap it.

Choose launch bar shortcuts

Fill the launch bar with apps you often use for one-touch access.

- To remove an app, press and hold the app and drag it out of the launch bar.
- To add an app, press and hold an app and then drag it to an empty slot on the launch bar.
- To group apps on the launch bar into a folder, just press and hold an app, and then drag it over to another app.

Wi-Fi Calling

Wi-Fi Calling can improve your coverage and allows you to make phone calls over a Wi-Fi network (when a Wi-Fi network is available).

To use Wi-Fi Calling, please use the SIM card shipped with your device. A different SIM card may not work with the Wi-Fi Calling feature.

Important! You must have an E911 address registered with your account in order to use Wi-Fi Calling. Log into your account at metropcs.com and go to your profile to register your address. You can also register an E911 address via the myMetro® app.

Turn Wi-Fi Calling on or off
1. Go to Settings, and then tap **Call**.
2. Under Enhanced communications, select or clear the **Wi-Fi Calling** checkbox.
3. Press ↰.
NOTE: When turning Wi-Fi Calling off, it may take some time before the **Wi-Fi Calling** checkbox clears.

Change the connection preference for Wi-Fi Calling
1. Go to Settings, and then tap **Call**.
2. Under Enhanced Communications tap **Wi-Fi Calling**.
3. Tap **Connection Preferences** and select a connection option.
